5 loans				245,000.00	269,500.00	6,500.00	148,500.00	127,500.00		

Each loan is due one year after it is disbursed and may be repaid in any amounts, at any time, by then; there is no instalment plan. Time left is until the due date. Once the due date has passed (shown in red) the whole balance is due, and a late penalty is added to it for each full month until the loan is paid in full. Outstanding = total payable + penalties - repaid; total payable includes interest and any bank charge on the withdrawal.
